## PHONE QUESTION MAY BE DISCUSSED

Between Wire Officials and City Councilmen At Regular Meeting of Latter Body Tonight

The City Council will meet in regular monthly session tonight, and it is expected that the long-deferred question of removal of the telephone poles from the streets will be up for settlement. Officials of the Cumberland Telephone and Telegraph Company are expected to be here for a conference with the city officials. It is considered imperative by apparently every one that the phone and lighting and power wires should be removed from the principal business streets before the work of paving the down town thoroughfares begins. The question of how this shall best be accomplished is about all that is necessary to be decided upon. It is believed.

Another important matter that may come up in respect to the telephone company is the question of installation of the common battery or central energy system. Other towns in Kentucky the size of Richmond have this modern system by which connection can be secured with central by lifting the receiver off its hook. Since the wires have been returned to their individual owners by the government the telephone company has been working under the higher scale of charges which were levied while under government control. In view of the fact that these charges are much higher than the contract rates with the city, it is expected that some action may be taken, looking to lowering of the rates back to the contract figure, or else some improvement of the service, as suggested which will make the higher rate more acceptable.

## SAYS PROFITEERS ARE HOARDING UP FOOD

(By Associated Press)  
Washington, Aug. 7.—Twenty per cent more food was held in storage on June 1st, than the same date a year ago, according to a memorandum issued today by the Federal Trade Commission. "While prices were as high or higher," the report recites, "apparently this means they are held speculatively for the world demand which is not now here but which is expected when hunger impelled strikers secure higher wages with which higher food prices can be paid."

## CRIMINAL CHARGES AGAINST BIG PACKERS

(By Associated Press)  
Washington, August 7.—The Government's case against the five big packers that will be placed before a federal grand jury at Chicago three weeks hence means criminal prosecutions will be instituted, Charles F. Clyne, Federal District Attorney at Chicago, also said civil suits will be brought under the Sherman Anti-trust Law and in addition the packers will be prosecuted under the food control Act on charge of hoarding.

Anti-trust suits against the great meat-packing firms were announced by Attorney-General A. Mitchell Palmer as the first concrete development of the Government's campaign to reduce the high cost of living. Armour, Swift, Morris, Wilson and Cudahy, the "Big Five" packers who have been pictured in the investigations of the Federal Trade Commission and before congressional committees as a great combination in control of food products, are to be haled again before the Federal Courts by Special Prosecutors. The evidence in hand, Attorney-General Palmer declared, indicated "a clear violation of the anti-trust law." The history of all the Government's anti-trust prosecutions in 25 years does not show a single individual having served a jail sentence for a violation, but there are evidences that the Government hopes for sentences in the present campaign.

## Section Men Fall Out

### This May Help Some

A citizen of this city has recently referred a complaint to the Director General of Railroads at Washington, D. C. This complaint voiced the sentiments of many of our citizens who have encountered difficulties in obtaining Pullman reservations from Winchester, to the East through the local agents. This case was handled by the Director of the Division of Traffic, who has been informed by the General Passenger Agent that General Agent at Lexington and the Assistant Superintendent of Kentucky Division have been instructed, "To caution ticket sellers and clerks to be on the alert, make the reservations immediately and when replies are not received within a reasonable length of time, ask for an answer and not wait for the public to make inquiry whether reply is received, but keep behind these matters in order that the public may receive the highest standard of Service." This shows conclusively that the Railroad Administration desires to render efficient service and it remains to be seen what improvement is forthcoming.

### Deaths

One of the most saddest and horrible deaths that ever occurred in this community was that of Oral Wells, the bright little four year old son of Mr. and Mrs. A. H. Wells. He was in the yard Thursday July first about one o'clock, when a storm came up. Lightning struck a tree in the yard and ran a wire a distance of forty feet to where the child was, killing him almost instantly. The deepest sympathy in extended to the bereaved ones in the hour of sorrow, but may they look to Jesus who can strengthen them and who ever doeth all things well and say thy will be done. The funeral was conducted at home Friday at one o'clock by Rev. Matherly, of Richmond, thence the burial in the Richmond cemetery. He is gone but not forgotten, never shall his memory fade, sweetest thoughts shall ever linger around the grave where he is laid.

## Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. # ROSEN RYE

**SOME FACTS ABOUT ROSEN RYE:**—Some few years ago a handful of this Rye was brought from Russia and given to Prof. Spragg, of Michigan, who experimented with it, finally selecting a single plant showing remarkable characteristics. The grain from this plant was saved and planted next season, when the process was repeated until sufficient had been obtained to experiment with a few expert farmers in different localities. At the State Experimental Farm the average yield was over 41 bushels per acre, the quality of the grain being exceptionally high.

It is claimed for Rosen Rye that on account of the manner in which it has been handled it is the purest pedigree seed in existence, particular pains being taken to prevent mixing with other grain. For the past four years the yield of this Rye was fine, averaging from 25 to 45 bushels, the quality being equal to or superior to the best common Rye even in the poor Rye years. The latest yields have been as high as 45 bushels to the acre, with an average of 35 bushels, while the common variety has averaged about 21 bushels.

The opinion is freely expressed by those who have tried Rosen Rye that it pays better to plant this seed, even if the price is twice as high as the common variety, both on account of the excess yield and the better quality of the crop.

**ROSEN RYE** produces a strong, vigorous straw, and stools to a remarkable degree. The grain is large, plump, heavy and of a beautiful color, ordinarily has four full rows of grain on over 90 per cent of its heads. Seldom winter kills and is especially good on lighter soils. It usually commands a premium in the market over other varieties. On account of its vigorous stooling property less seed is required, the practice being three or four pecks per acre.

We are booking orders for this seed, and if you are going to need Rye for your trade, we advise you to investigate ROSEN and let us quote you prices.
